

# Microsoft Rapid Screening Solution

V3 (1.0.0.120) Deployment Guide

April 26, 2021

## **VERSION 3**

### **(1.0.0.120)**

This release we are continuing our work on the backlog. It is now easier to push reminders, cancel appointments and re-attest. On the facility management side, we added a time zone configuration and a screening view.

Of course, there is so much more, so read on!

# Version 3 (1.0.0.120) - Features

## Employee App

- Re-attestation

## HSO App

- Cancellation of bookings

## Facility App

- Presumptive positive email to others – VIP
- Move time zone to Facility App
- Screening view - showing screening results

## Environment Variable

- Re-attestation config
- Admin email address
- Send as email

## Power BI

- New UX

# Employee App

## Re-attestation

When a screening is booked in the future the employee will need to re-attest on the day of the booking. This is to ensure that employee's attestation happens on the same day of the screening.

### 1.Booking a screening for the next day

April 21 Appointment  
SCHEDULED ARRIVAL TIME  
10:20 AM

Location:  
Toronto Branch  
Ground Floor  
Screening Area 1

The booking code are hidden at this time. To get the code please re-attest within 24 hours before your screening appointment.

CANCEL APPOINTMENT

Welcome [Redacted]  
Your Bookings

Apr 21 - 10:20 AM  
Toronto Branch

### 2. Re-attesting

Welcome [Redacted]  
Your Bookings

Apr 21 - 10:20 AM  
Toronto Branch

Re-attest

Do you agree with the following statements?

- In the last 72 hours, I have not had any of the following symptoms. Symptoms related
  - Fever (100.4F/38C)
  - Excessive Coughing
- In the last 14 days, I have not knowingly been within 6 feet...
- I have reviewed and understand Contoso's processes.

All future appointments will cancel if you disagree

I AGREE

I DISAGREE

# HSO App

## Cancellation of bookings

The HSO is able to cancel an appointment on behalf of the employee.

# Facility App

## Move time zone to Facility App

Time zone is now part of the Facility App. This will allow for flexibility in organizations where employees are crossing time zones.

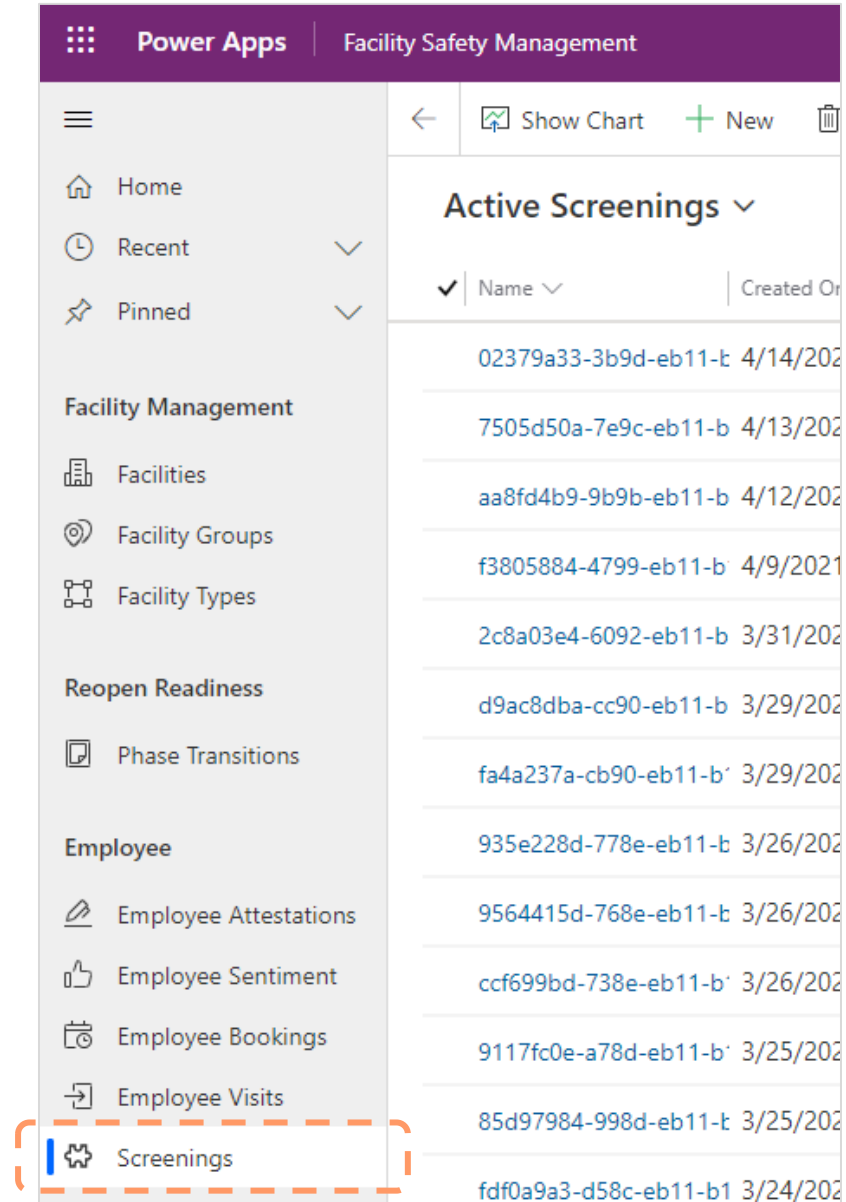

The screenshot displays the Facility App interface. On the left is a navigation sidebar with categories: Home, Recent, Pinned, Facility Management, Reopen Readiness, Employee, and Guest. The 'Facilities' option under Facility Management is selected. The main content area shows the 'Toronto Branch' facility details. At the top, there's a header 'Toronto Branch Facility' and a status bar indicating 'Reopening Facilities' (Active for 33 days) and '0 - Closed (33 D)'. Below this are tabs for 'Details', 'Occupancy', and 'Related'. The 'Details' tab is active, showing a form with fields: Facility Number (1), Name (Toronto Branch), Description (Toronto Branch), Facilities Closed Days (---), and Time Zone ((GMT-05:00) Eastern Time (US & Canada)). The 'Time Zone' field is highlighted with a dashed orange border. At the bottom, there's a section for 'Screening Test Types'.

# Environment Variable

## Re-attestation configuration

Enable or disable re-attestation on the day of the screening when the appointment was booked in the future.

CDL's guidance is to keep re-attestation enabled.

**Solutions > Consortium Member Global**

Display name	Name	Type
Admin Email Address	cdl_AdminEmailAddre	Environment va
<b>Emp Require to Reattest</b>	cdl_EmpRequiretoRea	Envire
Send As Email For Notific...	cdl_SendAsEmailForN	Envire

### Edit Emp Require to Reattest

Use this variable to store information about an app or flow. Its values can be updated as it moves to different environments. [Learn more](#)

**Display name \***

Emp Require to Reattest

**Name \***

cdl\_EmpRequiretoReattest

**Description**

**Data Type \***

**Default Value**

Yes

**Current Value**

Override the default value by setting the current value for your environment.

+ New value

# Environment Variable

## Admin email address

Email address used to send a notification in case the result flow\* fails.

\*Result flow: flow used to notify result of employee's screening.

The screenshot displays the Microsoft Dynamics 365 environment variables interface. The left sidebar shows navigation options: Home, Learn, Apps, Create, Data, Flows, Chatbots, AI Builder, and Solutions. The main area shows a list of environment variables for 'Consortium Member Global'. The 'Admin Email Address' variable is highlighted with a dashed orange box. An arrow points from this box to a detailed 'Edit Admin Email Address' dialog box on the right. The dialog box contains the following fields:

- Display name \***: Admin Email Address
- Name \***: cdI\_AdminEmailAddress
- Description**: This email address will be used to send notific...
- Data Type \***: Text
- Default Value**: [Redacted]
- Current Value**: [Redacted]

# Environment Variable

## Send as email

Email address used to send the screening result notification.
